# INTRODUCTION

EEZY COIN will erupt into a good revolution in the near future of cryptocurrency. From the last few years people are using cryptocurrency to make the trading and get some profit from it.

## MISSION:-

EMO Fintech Group Ltd. major mission is to make Crypto Currency accessible and beneficial to everyone in all situations. Eezy coin will supply you with a slew of new features that will make it a game changer in the cryptocurrency market. People will start utilising Eezy coins for a variety of things, which will surprise everyone, with the introduction of Eezy coins.

## VISSION:-

The majority of Cryptocurrency owners use their cryptocurrencies for trade or profit, however in the future, Eezy Coins owners will utilise their Eezy coins as a standard payment method. On the one hand, there's the internet, and on the other, there's the real world.

The EMO Fintech Group Ltd. philosophy is built on three pillars.

### PILLAR 1:-

EMO Fintech Group Ltd. aim is for everyone to be able to utilise their Cryptos as a payment option in the same way they do now. ONLINE AND OFFLINE AT THE SAME TIME. As a response, the EMO Fintech Group Ltd. is introducing the EEZY CARD.

The EEZY CARD is a popular Crypto Debit Card that allows you to pay EEZY offline at your favourite restaurant, bar, club, cinema, hotels, car rental, and many more. Take the EEZY CARD and choose which Crypto Currency you'd like to pay with after you've enjoyed your service. You can also recharge your Eezy card easily anytime by using the back office.

### PILLAR 2:-

We will also provide an app for Eezy card users to receive notifications of nearby locations where they can use the card.

The EEZY APP acts as a personal assistant, showing you what services are nearby and accepting the EEZY CARD as a payment method. Restaurants, Clubs, Cinemas, Stores, Gas Stations, and much more may be found on the menu.

Following your selection, the EEZY APP will direct you EEZY to the desired place. Of course, you can learn much more about EEZY Partners, their special offers, and their services. However, the EEZY APP will soon include a lot more functions. You'll be pleasantly surprised.

The EEZY COIN will not only be used to pay for our EEZY CARD, but it will also provide you with exclusive offers such as discounts, extra bonuses, reward points, cheap flights, and often more.

Any payment made using the EEZY CARD requires the use of the EEZY COIN. It doesn't matter where you are in the globe. A unique CASH BACK mechanism allows you to receive CASH BACK in EEZY COIN whenever a referred friend pays using an EEZY CARD.

# IEO(INITIAL EXCHANGE OFFERING)

EEZY COIN is an INITIAL EXCHANGE OFFERING (IEO). In EEZY terms, we have a guarantee that EEZY COIN will be listed on a Crypto Exchange and transferable with Bitcoin and other cryptocurrencies when the Pre-Sale Period ends.

EEZY Coin is a decentralized investment platform powered by TRON smart contract technology TRX20. A smart contract guarantees 100 % safety and transparency of work. EEZY coin is a great opportunity to multiply your assets in just a few days.

EEZY Coin is a verified smart contract. All processes in it take place in an open, decentralized blockchain network based on the tron. cryptocurrency TRX.

This means it is an open source programme, coding of which can be easily seen and can't be hidden, company or central authority has any control over this decentralized project. It is completely automated in nature. So in short your invested amount and future returns are completely safe with this verified smart contract. You can go ahead without fear of losing your coins.

# IEO (INITIAL EXCHANGE OFFERING)

IEOs are less likely to fail than ICOs. But just because they're safer than ICOs, it doesn't mean they're bulletproof. That's why you need to make a careful choice when investing in an IEO. Even if the exchange platform has vetted the project and has hosted successful IEOs before, it's essential that you do your homework as well.

## WHY CHOOSE US?

### HIGH SECURITY:-

We do not need to worry about the security of the Eezy Coin as the exchange platform manages the smart contracts of token sales and have defined security standards. Also, exchange platforms manage the process of AML/KYC ensuring the complete security of the project and prevent it from suspicious or fraudulent users.

We provide users with the opportunity to fully control devices and IP addresses from which they access their accounts. Also, security level can be enhanced by using various two factor authentication options.

### EASY TO USE:-

As Eezy coin is based on Initial Exchange Offering therefore making it so much easier and straightforward for users

All the processes are done by the crypto exchange platform. They can even use the stable customer base of these exchanges.

In this way, they can have more contributors or investors for their projects. Therefore, the money that they have to spend on marketing and advertisement can be saved. The exchange platforms help start-ups to advance their project without worrying about the detailed aspects of each step.

## DECENTRALISED – BOOST TRUST:-

One of the key benefits of our IEO is that here the crowdsale is conducted on an exchange which becomes like a middle man and counterparty that monitors every project processes. This reuse of decentralization can be seen as a counter to the basic idea that created Bitcoin and open blockchains in the first place, which was to be a completely P2P network. Therefore Eezy Coin is trustworthy and totally transparent as it focus on P2P network
